

MOAMEN ELBADRY HASSAN RAYYAN

FULL STACK .NET DEVELOPER • COMPUTER SCIENCE STUDENT

Sohag, Egypt | +20 122 404 4624 | elbadrymoamen254@gmail.com | [LinkedIn](#) | [Codeforces](#)

OBJECTIVE

Computer Science and Artificial Intelligence student at Sohag University with a solid foundation in C#, .NET, SQL Server, Object-Oriented Programming, Data Structures, Algorithms, and Problem Solving. Building hands-on Full Stack .NET Developer skills through the Digital Egypt Pioneers Initiative (DEPI) training program, covering ASP.NET Core, Entity Framework Core, Web API, and SQL Server. Competitive programmer with 300+ problems solved on Codeforces, reflecting strong analytical thinking and algorithmic problem-solving ability. Seeking an entry-level Full Stack .NET Developer position to apply technical skills, grow professionally, and contribute to real-world software development projects.

EDUCATION

Sohag University, Faculty of Computers and Artificial Intelligence

B.Sc. in Computers and Artificial Intelligence • Expected Graduation: 2028

GPA: 3.6 / 4.0 (Excellent)

TECHNICAL SKILLS

- Programming Languages: C#, C++, JavaScript
- Backend Technologies: .NET, ASP.NET Core, Entity Framework Core, Web API
- Database: SQL Server
- Core Concepts: Object-Oriented Programming (OOP), Data Structures, Algorithms, Problem Solving
- Tools & Version Control: Git, GitHub, SSMS, Visual Studio

TRAINING & CERTIFICATIONS

Digital Egypt Pioneers Initiative (DEPI) — Full Stack .NET Track *(In Progress)*

- Developing Full Stack .NET development skills through professional technical training.
- Strengthening knowledge of C#, .NET, ASP.NET Core, Entity Framework Core, Web API, and SQL Server.
- Applying software development concepts including OOP, Data Structures, Algorithms, and Problem Solving.
- Using Git and GitHub for version control and code management.

COMPETITIVE PROGRAMMING & PROBLEM SOLVING

- Solved over 300 algorithmic problems on Codeforces, developing strong proficiency in algorithmic thinking and time/space complexity analysis.
- Demonstrated strong analytical thinking, logical debugging, and algorithmic problem solving under constraints.
- Regularly practice competitive programming to improve coding efficiency and problem-solving skills.
